Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

MUNICIPALITY OF THE TOWNSHIP OF ERNESTOWN, COUNTY OF LENNOX & ADDINGTON

To Wit:

BY VIRTUE OF A WARRANT issued by the Reeve under the Seal of the Corporation of the Township of Ernestown to me directed, having date the 17th day of August, 1981, commanding me to levy upon and sell the lands mentioned in the following list for arrears of taxes and costs due thereon, I hereby give notice that unless such arrears of taxes and costs are sooner paid, I shall, pursuant to the provisions of the *Municipal Act*, proceed to sell by public auction the said lands, or as much thereof as may be necessary for the payment of the said taxes and costs, at the Administration Building, Odessa, on Wednesday, the 9th day of December, 1981 at the hour of 10.00 o'clock in the forenoon.

6.—(1) In the calculation of the resource equalization grant, the general support grant, or the special support grant for a municipality, where incorporation took place effective on or after the first day of the calendar year or where responsibility for any service delivery has been transferred between a lower-tier municipality and an upper-tier municipality, data pertaining to the year of incorporation or the year of transfer of responsibility for service delivery may be substituted for data pertaining to the immediately preceding year.

(2) In the calculation of the resource equalization grant, the general support grant, or the special support grant to a lower-tier or upper-tier municipality, where incorporation took place effective on or after the first day of the calendar year, other than a municipality to which subsection (1) applies, or where major boundary changes took place on or after the first day of the calendar year, data pertaining to the immediately preceding year may be adjusted to take into account such incorporation or changes in boundaries.

(3) The net general dollar levy of a municipality may be adjusted if incorporation took place after the first day of the immediately preceding year leading to municipal data pertaining to only part of the calendar year. O. Reg. 578/81, s. 6.

(2) Where a municipality fails to provide the additional data or amendments to the 1980 financial information return within the time required under subsection (1), the Minister may rely on such data as the Minister considers relevant to calculate the amount of the grant payable to the municipality.

(3) Where a grant has been calculated under subsection (2), a municipality may request a recalculation of the grant payable to the municipality by submitting such additional data or amendments to the 1980 financial information return as requested by the Minister.

(4) Where, the Minister considers revisions to the 1980 financial information return by a municipality to be necessary for the purposes of the payment of a grant under the Act, the Minister may amend the data as the Minister considers necessary to calculate the amount of the grant payable to the municipality. (3) Notwithstanding anything in this Regulation, where the Act authorizing a special regional levy authorizes the special levy to be apportioned among area municipalities according to the assessment for the whole or for a specified part of the area municipality and where a regional municipality proposes to use the assessment for part only of an area municipality in apportioning a special levy in accordance with that Act, the assessment for that part of the area municipality shall, for purposes of subsection (2), be deemed to be the assessment for the whole area municipality. Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

The Environmental
Assessment Act

NOTICE OF APPROVAL TO PROCEED
WITH THE UNDERTAKING

RE: An Environmental Assessment for Highway 403,
Ancaster to Brantford, Type I Report

Proponent: Ministry of Transportation and Communications

E.A. File No. 1-79-0023-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on August 19, 1981. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

I have considered the purpose of the Act and the environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions given on the attached schedule.

REASONS:

The reasons for giving approval are:

- (1) I received 2 submissions and no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated February 11, 1981 and no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Acceptance of the Environmental Assessment*, dated July 28, 1981. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be called.
- (2) The environmental assessment together with the Government review sufficiently fulfill the purpose of the *Environmental Assessment Act*, which is the betterment of the people of the whole or any part of Ontario by providing for the protection, conservation and wise management in Ontario of the environment.

Dated at Toronto, the 10th day of September, 1981.

K. C. NORTON
Minister of the Environment,
135 St. Clair Avenue West,
14th Floor,
Toronto, Ontario M4V 1P5.

Approved by

CONDITIONS OF APPROVAL

These conditions apply to the undertaking as described in item 2 of the Resume of the EA (Form 1)*.

1. This approval allows the route proposed by MTC in this Type I EA as shown on Figure 2 "Modification to selected Planning Alternative", to be designated and the property associated with the project to be purchased but does not permit the commencement of construction.
2. The Ministry of Transportation and Communications shall include in the Type II EA a noise impact analysis for the sensitive areas along the proposed route together with a list of noise control measures, to be carried out in accordance with the April 19, 1979 Freeway Noise Policy of Ontario and the Ministry of Environment's Sound Level

Criteria for Non-Residential Areas. The noise control measures shall be to the satisfaction of the Noise Pollution Control Section of the Ministry of the Environment.

- * Form 1 is required by the Act's regulations and provides a summary of the main topics that must be discussed by an EA to meet the provisions of section 5 (3) of the Act.
- 3. The Ministry of Transportation and Communications shall include in the Type II EA the locations where the right-of-way will encroach within 50 feet of any subsurface sewage disposal system, and in such cases, shall include measures to ensure that construction will not adversely affect the sub-surface movement of effluent away from any tile bed area. These control measures shall be to the satisfaction of the authority administering Part VII of the *Environmental Protection Act* with respect to such tile beds.
- 4. The Ministry of Transportation and Communications shall include in the Type II EA to the satisfaction of the Water Resources Branch and West Central Region of the Ministry of the Environment, the following:
 - (a) control measures to minimize the impairment of water quality of all stream and lake crossings;

Made—October 1st, 1981.

Filed—October 1st, 1981.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL
RESOURCES—MNR-32/2

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of dredging the Keating Channel at the mouth of the lower Don River and portions of the Inner Channel and disposing of the resultant spoils in the existing dredge spoil enclosure on the south side of the Leslie Street spit,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Natural Resources that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public, and particularly the industries and services located in the lower Don area, could be damaged by any flooding of the lower Don River through property damage, loss or interruption of economic activities, and the destruction of the physical resources for which the flood protection conservation mandate is shared by the Ministry of Natural Resources and The Metropolitan Toronto and Region Conservation Authority.
- B. The persons referred to in paragraph A above will be unduly interfered with by the increased risk which would be caused by the interruption of dredging activities while the environmental assessment required by condition 1 is prepared and considered.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The deposition of material within the Keating Channel and the Inner Harbour restricts the flow of flood waters and thus increases the potential for flooding, particularly as a result of ice jams;
- B. Indications are that the lower Don River is the location which would be most seriously affected by a major flood in the Metropolitan Toronto Area;

- C. Due to the topography surrounding the mouth of the river, flood which overtopped the channel could cause significant damage to the various industries and services located in the area;
- D. An environmental assessment of the undertaking is being prepared and will be submitted for approval under the Act prior to expiry of this exemption by The Metropolitan Toronto and Region Conservation Authority acting as an agent of the Ministry of Natural Resources;
- E. This exemption is temporary in nature and is being put forward to allow for the necessity of implementing remedial measures designed to minimize the risk in relation to the damages mentioned above, during the time required to prepare an environmental assessment for the undertaking;
- F. The Council of the City of Toronto has endorsed an extension of the time within which dredging may be carried out prior to submitting an environmental assessment under the Act beyond the time allowed by the Exemption Order made under the Act and filed as O.R. 780/80.

This exemption is subject to the following terms and conditions:

1. By March 31st, 1982, The Metropolitan Toronto and Region Conservation Authority acting as an agent of the Ministry of Natural Resources shall prepare and submit for approval under the Act an environmental assessment with respect to the proposal to control flooding and other related problems created by silting in the lower Don River, the Keating Channel and the Inner Channel.
2. This exemption shall expire on *March 31st, 1982* or at such time as the decision with respect to approval to proceed with the undertaking has been made under section 14 of the Act, whichever date is the earliest. O. Reg. 653/81.

EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS —MTC-43

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The activity of carrying out archaeological salvage excavation at the site identified by Border Number AgHd-8 within the right-of-way of the proposed Highway 403 between Rest Acres Road and Horners Creek, being an action required prior to the construction of the proposed highway facility,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised by the proponent that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public and the Ministry of Transportation and Communications will be damaged and interfered with by the delay in carrying out the highway project which would be caused by application of the Act to the salvage excavation.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the reasons set forth in exemption order MTC-40 filed as Regulation No. O.R. 406/81 and subject to the same conditions, except as to the location of the site, as set out therein. ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF ENERGY—
ENERGY-1

Having received a request from the Ministry of Energy that an undertaking, namely:

A programme to demonstrate the use of hydro-electric generating plants have an installed capacity of less than 100 kw consisting of plants at Guelph Dam, Millcroft Inn, and the Dorion Fish Hatchery,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Ministry of Energy that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Energy's schedule for the implementation of the programme will not be met;
- B. The public in remote communities will be interfered with by the delay in the development of the type of plants to be demonstrated which could provide needed electrical supply;
- C. The opportunity to encourage hydraulic plant manufacturing in the Province of Ontario is likely to be less.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is subject to the review and approval under the various legislation administered by the Ministry of Natural Resources and the Ministry of the Environment including the *Lakes and Rivers Improvement Act* and the *Ontario Water Resources Act*;
- B. The construction and operation of these plants is not likely to result in significant adverse affects on the environment.

This exemption is subject to the following terms and conditions:

1. The Ministry of Energy will ensure that all necessary approvals are obtained including

those from the Ministry of Natural Resources, the Ministry of the Environment, and the Municipality involved in the same way as though the *Ontario Water Resources Act*, the *Lakes and Rivers Improvement Act*, the *Municipal Act* and the *Planning Act* bound the Crown.

2. In any case where a potentially historic site is to be renovated for the purposes of the undertaking, the Ministry of Energy will consult with the Ministry of Culture and Recreation.
3. This order does not apply to any of the listed dams where the proposed electrical generating facilities have not been constructed by September 30, 1983.
4. Where the implementation of this undertaking requires that some activity, for which an environmental assessment has been carried out and an approval to proceed received, be conducted, that activity shall be carried out in accordance with the environmental assessment and approval to proceed.

EXEMPTION—ONTARIO ENERGY
CORPORATION—OEC-2/2

Having received a request from the President of the Ontario Energy Corporation that an undertaking, namely:

An exploration program to explore for mineral deposits, especially lignite, in the Cretaceous Basin in the James Bay Lowlands,

be exempted from the application of the Act pursuant to Section 29; and

Having been advised that the undertaking will have no significant adverse effect on the environment and is necessary for the implementation of Provincial energy policy initiatives aimed at developing Ontario's ability to meet more of its own energy needs.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Meeting the EA requirements at this time would prevent the exploration activities from occurring this summer season;
- B. The undertaking will involve helicopter reconnaissance, surficial geological examination and augering to determine the extent of the lignite beds near the observed outcrops. Additional diamond drilling may be undertaken if warranted. Clean-up activities should mitigate adverse environmental effects carried by these activities;
- C. The undertaking supports Provincial Government Policy initiatives as outlined in the Ministry of Energy document, *Energy Security for the Eighties; A Policy for Ontario*;
- D. The undertaking could help to develop indigenous fossil fuel supplies;
- E. The undertaking could stimulate further exploration activity in the area.

This exemption is subject to the following terms and conditions:

1. The Ontario Energy Corporation will provide the Regional Offices of the Ministries of the Environment and Natural Resources with:
 - (a) A detailed description of where exploration will take place;
 - (b) An outline of what exploration activities and mitigation measures will take place during and after exploration is completed.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS —MTC-41

Having received a request from the Minister of Transportation and Communications that an undertaking, namely:

The activity of carrying out road projects in territory without municipal organization costing less than \$200,000 in capital funds and requested by a Local Roads Board, a Statute Labour Board, the Band Council for an Indian Reserve or by other Indian Band Council north of the 50th parallel under the Ministry of Transportation and Communications Municipal Roads Program,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Transportation and Communications will be interfered with and damaged by the undue delay and expense required to prepare environmental assessments for projects that are, for the most part, of a minor nature and tend to have little or no detrimental effects on the environment; and
- B. The public will be interfered with and damaged by undue delay in the carrying out of projects which are required to provide for safe and effective transportation, that being an essential service in Northern Ontario.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt

from the application of the Act for the following reasons:

- A. The undertaking is unlikely to have any significant adverse effects on the environment and, therefore, the interference and extra work required of the Ministry of Transportation and Communications which would be caused by the application of the Act, would be undue; and
- B. In territory without municipal organization, road projects are put forward in the spring by annually-elected Local Roads Boards or Statute Labour Boards and by the Band Council of an Indian Reserve or by other Indian Band Council north of the 50th parallel, for construction during the summer months resulting in an extremely short period of time in which to prepare environmental documentation and complete the work.

This exemption is subject to the following terms and conditions:

- 1. Projects being constructed under this exemption shall be constructed according to the method set out in the Highway Construction Practices and Potential Concerns Manual;
- 2. This exemption order applies only to projects initiated by Local Roads Boards, Statute Labour Boards, the Band Council of an Indian Reserve or by other Indian Band Council north of the 50th parallel, in territory without municipal organization and for which construction is carried out by the Ministry of Transportation and Communications for the benefit of said Boards or Indian Bands. Exemption—Ministry of Government
Services—MGS-46.
Made—July 8th, 1981.
Approved—July 8th, 1981.
Filed—October 1st, 1981.

ORDER MADE UNDER
THE ENVIRONMENTAL ASSESSMENT
ACT

EXEMPTION—MINISTRY OF GOVERNMENT
SERVICES—MGS-46

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of developing and implementing special-lease projects for the provision of accommodations projects described in the conditions, by the Ministry of Government Services,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

- A. The Crown will be damaged and interfered with by the undue expense required to prepare environmental assessments for projects that will have no significant adverse effects on the environment;
- B. The programs of the various client ministries of the Ministry of Government Services will be interfered with and possibly damaged in that existing, leaseable accommodation is either unavailable or unsuitable for current or future program requirements and, therefore, precludes operating in as efficient a manner as possible; and
- C. The public will be interfered with in that the level of service available from the client ministries, the efficiency with which it is effected, and the access to that service is restricted by the availability of suitable existing leaseable accommodation.

Having weighed such damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. This order only exempts those special lease projects which are to be commenced prior to June 30, 1982, as indicated on a list which the Ministry of Government Services is to submit to the Ministry of the Environment by June 30, 1981. Special lease projects which do not appear on the list and/or which are commenced after June 30, 1982 are not exempt under this order. These projects will be the subject of a class environmental assessment which the Ministry of Government Services is to submit for approval not later than December 31, 1981; and

B. The Minister of Government Services has assured me that:

- (i) special lease projects will be implemented in accordance with all municipal by-laws;
- (ii) wherever possible development will be keyed to the local infrastructure and as such the adequacy and availability of municipal services such as sanitary and storm sewers, potable water, parking, transportation, power/energy requirements, communication facilities, etc. will be of prime importance in siting projects;
- (iii) methods will be developed whereby cultural and heritage concerns will be dealt within a logical and sympathetic fashion keeping in mind the legislative requirements of the *Heritage Act* and *The Environmental Assessment Act, 1975*; and
- (iv) the Ministry of Government Services will abide by the intent of the Ministry of Agriculture and Food's Foodland Guidelines for uses of agricultural lands.

This exemption is subject to the following terms and conditions:

1. The Ministry of Government Services shall submit to the Environmental Approvals Branch of the Ministry of the Environment a list of those special-lease projects which are to be commenced prior to June 30, 1982. The list shall be submitted not later than June 30, 1981 and shall be placed on the Public Record.
2. The Minister of Government Services shall, prior to December 31, 1981, submit for approval under the Act a class environmental assessment dealing with special-lease projects.
3. This exemption order only applies to the Ministry of Natural Resources' Carleton Place District Office relocation, Ministry of Government Services' file number L-6805 and such other projects as are included in a list submitted under Condition 1.
4. This exemption order does not apply with respect to any project the construction of which is not commenced by June 30, 1983.
5. This exemption order does not apply with respect to any project for which the Ministry of Government Services has not by June 30, 1982 entered into a contract with the proposed supplier of the premises to supply the premises.

6. If the class environmental assessment referred to in Condition 2 is not submitted by December 31, 1981, this exemption order does not apply with respect to any project for which the Ministry of Government Services has not by December 31, 1981 entered into a contract with the proposed supplier of the premises to supply the premises. THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 659/81.

Exemption—Ministry of the Environment—MOE-21.

Made—July 8th, 1981.

Approved—July 8th, 1981.

Filed—October 1st, 1981.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF THE ENVIRONMENT—MOE-21

Having received a request from the Ministry of the Environment that an undertaking, namely:

The construction of approximately 2600 linear metres of watermain to serve parts of the Town of Thornbury and to enable connections to be made to waterworks being constructed in the Township of Collingwood, and the installation of required water treatment equipment and associated pipe work and tankage at the existing water treatment plant in the Town of Thornbury,

be exempt from the application of the Act pursuant to Section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following interference with the persons indicated will occur:

- A. The public will be interfered with by any delay in establishing the water supply to the Craighleith and Camperdown areas of Collingwood Township; and
- B. The citizens of the Town of Thornbury will be interfered with by any delay in the establishment of this project as the looping of the existing water system is needed to improve

the performance of the water distribution system and to allow growth to take place in an orderly fashion.

Having weighed such interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the Environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The undertaking is being partially funded by the Board of Industrial Leadership and Development (BILD) which provides special servicing funds to assist rural communities in attracting growth industries.
- B. The undertaking is merely a component of a larger project, the balance of which is already exempt from the Act;
- C. The undertaking has already reached an advance stage of planning in that a preliminary report has been prepared. Drawings and specifications for construction are to be finalized shortly; and
- D. The contract documents for the undertaking will contain requirements respecting the manner in which construction activities are to be carried out for the purposes of reducing the adverse effects on the environment.

This exemption order is subject to the following terms and conditions:

1. The proponent shall appoint an on-site inspector who will be responsible for, among other duties, overseeing all construction to ensure that all reasonable measures are taken to protect the environment.
2. The proponent shall implement the undertaking in a manner consistent with the practices described in the Ministry of the Environment document, entitled "Environmental Considerations for the Planning and Construction of Provincial Sewer and Water Projects, Second Edition, November 1980", by ensuring that the appropriate sections of the document are included in the specifications and drawings for construction of the project and that the intent of the sections is achieved in the field during construction.
3. This exemption shall terminate on June 3, 1985. O. Reg. 659/81.

O. Reg. 660/81.

Exemption—Ministry of Transportation and Communications—MTC-44.

Made—September 10th, 1981.

Approved—September 10th, 1981.

Filed—October 1st, 1981.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF TRANSPORTATION AND COMMUNICATIONS—MTC-44

Having received a request from the Toronto Area Transit Operating Authority (GO Transit), that an undertaking, namely:

The activity of entering into a property option agreement or the purchasing of a bus storage garage site, located in the Town of Newmarket, for the purpose of relocating the existing Newmarket GO Transit Storage Garage,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Toronto Area Transit Operating Authority (GO Transit) will be limited in its options available to relocate the existing Newmarket GO Transit Bus Terminal and Storage Garage, for which a draft environmental assessment has been prepared, if the proposed site is sold to other persons prior to GO Transit obtaining formal approval under the Act.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

- A. The entering into a property option agreement or purchase of the proposed site will not affect the decisions on the review and acceptance or amendment and acceptance of the environmental assessment which is to be submitted for the proposed relocation nor the

decisions on approval since the environmental assessment will consider alternative sites on the basis that they are not owned and GO Transit has undertaken to sell the site in the event an approval is not given for the construction of the bus storage garage on the site;

- B. The proposed site is satisfactory to the Regional Municipality of York and the Town of Newmarket.

This exemption is subject to the following terms and conditions:

1. The proposed site referred to is that site identified in the attachments to the letter dated July 17, 1981 from A.F. Leach, Managing Director of GO Transit, to the Minister of the Environment and described in the draft environmental assessment as Site No. 3.
2. The proponent will only obtain an option of the property, if one is available on reasonable terms and conditions, and will not acquire ownership of the property unless it is necessary to protect the property from competing uses during the environmental assessment process for the proposed relocation.
3. In the event the proposed relocation is not approved under the Act or is approved in a way which does not require the use of the site, the option will be allowed to lapse or the property, if acquired, will be sold.
4. Acquisition of the property shall not affect the environmental assessment process required for the relocation of the existing Newmarket GO Transit Bus Terminal and Storage Garage and the construction of new facilities, an undertaking which shall remain subject to the provisions of the Act.
